Summary of Sustainability Achievement in 2025

Foreword

Dear Readers,

At United Accredited Company (UAC), sustainability is embedded within our corporate strategy and daily operations. As a leading manufacturer of polypropylene woven packaging solutions, we recognize our responsibility to minimize environmental impacts, support our employees and communities, and create long-term value for all stakeholders.

Throughout 2025, UAC continued its sustainability transformation journey by strengthening environmental performance monitoring, expanding climate reporting, increasing renewable energy utilization, promoting circular economy practices and enhancing stakeholder engagement.

The year was marked by significant progress in environmental management, responsible sourcing, greenhouse gas reporting, employee development and customer sustainability initiatives. We also achieved important milestones in sustainability performance recognition and continued aligning our activities with Saudi Vision 2030 and international ESG best practices.

We remain committed to continuous improvement and responsible growth while delivering high-quality packaging solutions to customers worldwide.

Dr. Rami Alamoudi

About United Accredited Company (UAC)

United Accredited Company (UAC) is one of the leading manufacturers of polypropylene woven packaging products in the Middle East.

With more than three decades of manufacturing experience, UAC serves customers across multiple industries including:

- Petrochemicals
- Cement
- Agriculture
- Food Products
- Animal Feed
- Construction Materials
- Industrial Packaging

Our product portfolio includes:

- PP Woven Bags
- AD*STAR Valve Bags
- FIBC (Jumbo Bags)
- Dunnage Bags
- Container Liners
- Flexitanks

SUSTAINABLE SOLUTIONS FOR A BETTER TOMORROW

Delivering sustainable packaging solutions across diverse industries while protecting our planet for future generations.

INDUSTRIES WE SERVE

- Petrochemicals
- Cement
- Agriculture
- Food Products
- Animal Feed
- Construction Materials
- Industrial Packaging

OUR COMMITMENT TO SUSTAINABILITY

OUR PRODUCT PORTFOLIO

- PP Woven Bags
- AD*STAR Valve Bags
- FIBC (Jumbo Bags)
- Dunnage Bags
- Container Liners
- Flexitanks

SUSTAINABILITY IN ACTION

CLIMATE ACTION
Reducing emissions and energy consumption

WATER STEWARDSHIP
Conserving water and promoting responsible usage

WASTE REDUCTION
Minimizing waste and maximizing recycling in our operations

SUSTAINABLE PRODUCTS
Designing durable, recyclable and eco-friendly products

PEOPLE & COMMUNITY
Empowering our people and supporting the communities we serve

ETHICAL BUSINESS
Upholding integrity, transparency and responsible practices

PARTNERSHIPS
Collaborating with partners for a sustainable value chain

OUR IMPACT, A BETTER FUTURE

Lower Carbon Footprint

Circular Economy Contribution

Conserving Natural Resources

Building a Sustainable Value Chain

Protecting Our Planet for Future Generations

Sustainable Today, Better Tomorrow

The company operates a modern manufacturing facility in Jeddah equipped with advanced extrusion, weaving, lamination, printing, conversion and recycling technologies.

Sustainability Governance

Sustainability oversight is provided by the Sustainability Committee under the supervision of senior management.

The Sustainability Committee is responsible for:

- Monitoring ESG performance.

2025 SUSTAINABILITY HIGHLIGHTS

A year of progress towards a greener, cleaner and responsible future

01 JANUARY 2025

Published the company's Greenhouse Gas (GHG) Emissions Report.

02 FEBRUARY 2025

Expanded environmental KPI monitoring to include Scope 2 greenhouse gas emissions.

03 MARCH 2025

Updated Environmental Policy with measurable SMART environmental objectives.

04 APRIL 2025

Enhanced supplier sustainability assessment process and supplier due diligence activities.

05 JUNE 2025

Conducted annual stakeholder engagement survey and sustainability consultation program.

06 JULY 2025

Awarded EcoVadis Silver Medal for sustainability performance.

07 AUGUST 2025

Expanded sustainability awareness training across all departments.

08 SEPTEMBER 2025

Completed implementation of updated environmental objectives and climate targets.

09 OCTOBER 2025

Enhanced waste segregation and recycling programs.

10 NOVEMBER 2025

Expanded solar-powered lighting systems.

11 DECEMBER 2025

Achieved 100% recycling of production waste for another consecutive year.

Together, we create lasting impact for our planet, people and communities.

REDUCING EMISSIONS
Taking action on climate change.

CONSERVING RESOURCES
Using energy and water responsibly.

CIRCULAR ECONOMY
Minimizing waste and maximizing value.

EMPOWERING PEOPLE
Developing people and supporting communities.

RESPONSIBLE BUSINESS
Upholding ethics, transparency and sustainability.

شركة العتدودن التحددة للتجارة والصناعة المحدودة

Environmental Performance

Climate Change and Greenhouse Gas Management

Climate change remains one of the most significant sustainability challenges globally.

During 2025 UAC strengthened its climate reporting framework and expanded greenhouse gas monitoring activities.

Key Achievements

- Completed Scope 1 greenhouse gas inventory.
- Established Scope 2 emissions reporting framework.
- Developed Scope 3 emissions assessment roadmap.
- Enhanced climate-related data collection processes.

Greenhouse Gas Performance

| Indicator | 2024 | 2025 |
|--|------------------|------------------|
| Scope 1 Emissions (tCO ₂ e) | 90.87 | 174.50 |
| Scope 2 Emissions (tCO ₂ e) | Not Reported | 5,915 |
| Scope 3 Emissions | Under Evaluation | Under Evaluation |

Future Climate Commitments

- Reduce Scope 1 emissions by 5%.
- Improve energy efficiency.
- Increase renewable energy utilization.
- Complete Scope 3 emissions assessment.

Energy Management

Energy efficiency remains a strategic priority for UAC.

Key Achievements

- Expanded solar-powered lighting systems.
- Enhanced preventive maintenance programs.
- Improved monitoring of energy consumption.
- Reduced energy intensity through operational improvements.

Energy Performance

| Indicator | 2024 | 2025 |
|------------------------------------|-------|-------|
| Total Energy Consumption (MWh) | 3,605 | 3,420 |
| Renewable Energy Consumption (MWh) | 136 | 185 |
| Renewable Energy Contribution | 12% | 15% |

Energy Initiatives

- LED lighting improvements.
- Preventive maintenance of chillers.
- Air compressor efficiency monitoring.
- Employee energy awareness programs.

Water Stewardship

Responsible water management remains an important sustainability focus area.

Key Achievements

- Reduced overall water consumption.
- Maintained wastewater recycling through Modon.
- Improved monitoring of water consumption.

Water Performance

| Indicator | 2024 | 2025 |
|-------------------------------------|--------|--------|
| Water Consumption (m ³) | 17,230 | 16,150 |
| Water Recycled (m ³) | 15,850 | 16,150 |

Water Management Initiatives

- Water conservation awareness campaigns.
- Monitoring of water usage.
- Preventive maintenance of water systems.
- Cooperation with Modon recycling programs.

Circular Economy and Waste Management

UAC continues to support circular economy principles through waste reduction, recycling and resource efficiency.

Key Achievements

- Maintained zero production waste to landfill.

- Recycled all production waste through internal recycling operations.
- Increased utilization of recycled materials.
- Expanded packaging recovery initiatives.

Waste Performance

| Indicator | 2024 | 2025 |
|----------------------------|-------|-------|
| Hazardous Waste (kg) | 1,410 | 1,280 |
| Non-Hazardous Waste (tons) | 370 | 390 |
| Waste Recovered (tons) | 286.5 | 310 |
| Recycled Input Materials | 92% | 94% |

Circular Economy Initiatives

- Increased recycled material utilization.
- Promotion of recyclable packaging solutions.
- Packaging recovery awareness programs.
- Customer support for recycling initiatives.

Air Emissions and Pollution Prevention

UAC continues monitoring and controlling air emissions generated by operations.

| PM | 1.0 | 0.9 |
| VOCs | 0.8 | 0.7 |

Improvement Actions

- Equipment maintenance programs.
- Process optimization.
- Monitoring of emissions.
- Environmental awareness activities.

Sustainable Procurement

During 2025 UAC continued integrating sustainability considerations into procurement activities.

Key Actions

- Supplier Sustainability Code of Conduct implementation.
- Supplier sustainability assessments.
- ESG due diligence procedures.
- Evaluation of environmental and social performance of suppliers.

Objectives

- Improve supplier sustainability performance.
- Increase responsible sourcing.
- Strengthen supply chain transparency.

Employee Development and Wellbeing

Employees remain the foundation of UAC's success.

Key Achievements

- Sustainability awareness training delivered to employees.
- Occupational health and safety improvements.
- Professional development opportunities.
- Employee engagement programs.

Training Areas

- Environmental awareness.
- Sustainability principles.
- Health and safety.
- Ethics and compliance.
- Information security.

Community Engagement

UAC continues supporting local communities through environmental and social initiatives.

Awards and Recognition

EcoVadis Silver Medal

In 2025 UAC was awarded the EcoVadis Silver Medal in recognition of its sustainability management practices and commitment to continuous improvement.

This achievement reflects the company's efforts in:

- Environmental management.
- Labor and human rights.
- Ethics and compliance.
- Sustainable procurement.

2026 Sustainability Outlook

Building on our 2025 achievements, UAC will:

- Complete Scope 3 greenhouse gas assessment.
- Increase renewable energy utilization.
- Improve energy efficiency by 5%.
- Reduce water consumption by 5%.
- Increase recycled material utilization.
- Expand supplier sustainability assessments.
- Strengthen climate-related reporting.
- Continue maintaining 100% waste recycling.
- Enhance stakeholder engagement initiatives.
